

**TWENTY FIRST CENTURY COMMUNICATIONS AND VIDEO ACCESSIBILITY ACT OF 2010
STATEMENT OF COMPLIANCE**

- We provide emergency information in a manner that is accessible to people who are blind or visually impaired.
- We provide video descriptions and emergency information on devices with screens smaller than 13 inches that is accessible to people who are blind or visually impaired, if technical feasible and achievable.
- We provide devices designed to record TV programs to pass through closed captions, video descriptions and emergency information so viewers can turn on/off the closed captions and make video descriptions and emergency information audible
- We provide interconnection mechanisms to carry the information necessary to permit the display of closed captions and make video decryption and emergency information audible.
- We provide remote controls for TVs and other video programming devices to be accessible to people who are blind or visually impaired and have a button designated for activating closed captioning and video description.
- We provide on-screen text menus and program guides displayed on TV by set-top boxes to be accessible to people who are blind or visually impaired and have a button designated for activating closed captioning.
- We provide audible accessibility reading for set-top boxes.
- We enable consumers to adjust closed captions in a variety of ways, including their color (both text and background color), size, fonts, opacity, edge attributes and language selection.

If you have any questions about this compliance or need to make any requests please contact our office at 712-786-1181.
